3. RECOGNITION: COMMISSIONER PENNY MCGHEE

Commissioner Penny McGhee was recognized for her service as 2010 Chair of the Franklin County Board of Commissioners.

4. MOBILE CAD/AVL FOR RESPONDERS

Law enforcement personnel and other emergency responders have expressed interest in the mobile version of the CAD system. Director Christy Shearin requested funding from the 911 fund balance to implement this for Law Enforcement Personnel and to install this in the Fire and EMS Departments in the County.

The item was originally discussed by the Board at its January 18, 2011 meeting. It was subsequently tabled until more information could be obtained regarding the 911 Fund and until Mrs. Shearin had spoken with each department that would utilize the proposed system making certain all affected parties were made aware of their responsibility regarding future maintenance of the system and any associated costs.

The action requested for the evening was that the discussion be delayed once more until the Board’s March 21, 2011 meeting.

Commissioner McGhee made the motion to delay discussion until the March 21, 2011 Board meeting, seconded by Commissioner Lancaster. At that time, Commissioner Mitchell asked why a delay was necessary. Mrs. Shearin stated she met with all the responders as the Board had asked and said “everyone is on Board.” She said she and the Finance Director (Chuck Murray) had not had the opportunity to get all of the figures together for the 911 fund to present to the Board.

Mr. Murray stated he and Mrs. Shearin had in fact looked over the numbers and said there would not be a significant amount of funds remaining in the E911 fund at the end of this project. He said he had planned to use any remaining E911 funds to reimburse and help pay for debt service in the next budget. Mr. Murray recommended that money

not be taken out of the E911 fund because all of it would be needed in the future. He said staff briefly looked over the numbers and said the true cost of the system remains unknown. He stated there are a number of variables still unknown with the project. Mr. Murray said he met with Mrs. Shearin and the County Manager and the Manager decided to ask the Board to delay the project. If the Board should elect to move forward with the project, he encouraged that funding should be obtained during the borrowing process in April rather than utilizing the remaining fund balance for E911.

Upon Commissioner McGhee’s earlier motion to delay the discussion until the March 21, 2011 Board meeting, seconded by Commissioner Lancaster, the motion carried 6 to 1, with Commissioner Mitchell voting “NO.”
